I gave (s3 & ec2) permission to Jenifer ,now she can access my s3 bucket

The screenshot shows the AWS Management Console interface for an S3 bucket named 'image-12'. The browser address bar indicates the URL is 'us-east-1.console.aws.amazon.com/s3/buckets/image-12?region=us-east-1&bucketType=general&tab=objects'. The user's profile is 'jenifer @ 6006-2734-1010', highlighted with a red box. The left sidebar shows the 'Amazon S3' navigation menu with options like Buckets, Access Grants, Access Points, Object Lambda Access Points, Multi-Region Access Points, Batch Operations, IAM Access Analyzer for S3, Block Public Access settings for this account, Storage Lens, Dashboards, Storage Lens groups, AWS Organizations settings, Feature spotlight, and AWS Marketplace for S3. The main content area shows the 'image-12' bucket details, including tabs for Objects, Properties, Permissions, Metrics, Management, and Access Points. The 'Objects' tab is active, displaying a list of objects. There is one object named 'IMG_20211226_201509.jpg' with a size of 2.9 MB and a storage class of Standard. The object was last modified on October 10, 2024, at 17:26:11 (UTC+05:30).

Amazon S3 > Buckets > image-12

Objects are the fundamental entities stored in Amazon S3. You can use [Amazon S3 inventory](#) to get a list of all objects in your bucket. For others to access your objects, you'll need to explicitly grant them permissions. [Learn more](#)

access my ec2

The screenshot shows the AWS Management Console for the us-east-1 region. The top navigation bar includes the AWS logo, a search bar, and the user's profile 'jenifer @ 6006-2734-1010' which is highlighted with a red box. The left sidebar contains a navigation menu with categories like EC2 Dashboard, Instances, Images, and Elastic Block Store. The main content area is titled 'Instances (3)' and displays a table of three EC2 instances: 'instagram', 'facebook', and 'whatsapp'. All instances are in a 'Stopped' state. Below the table, there is a section titled 'Select an instance'.

us-east-1.console.aws.amazon.com/ec2/home?region=us-east-1#Instances:v=3;\$case=tags:true%5C,client:false;\$regex=tags:false%5C,client:false
